SUMMARY

Business Analyst and Professional Scrum Master II with a track record of translating complex technical needs into clear business requirements. Expertise in eliciting and analyzing requirements, facilitating both Agile and Waterfall projects, and serving as the bridge between stakeholders and development teams. Skilled in JIRA, Confluence, and actively adopting AI tools and knowledge to drive efficient delivery and processes.

EDUCATION

Boston University — Questrom School of Business

Aug 2024 – May 2025

Master of Science, Management (GPA: 3.8)

Coursework: Product Management, Project Management, Quantitative Methods (Honors), Client Marketing (Honors)

WORK EXPERIENCE

Technical Business Analyst

Jul 2025 – Present

American Technology Consulting (ATC) · Contract · Remote West Des Moines, IA

- Led requirements gathering and stakeholder analysis across 2 client engagements, reducing project scope creep by 30% and accelerating delivery by 3 weeks.
- Supported product backlog grooming and feature prioritization by gathering user feedback from 10+ stakeholders, contributing to a 20% improvement in sprint delivery alignment and on-time feature releases.
- Cut manual reporting effort by 40% by leveraging AI tools (ChatGPT, Copilot) to automate data cleaning, sprint documentation, and competitive analysis, freeing 10+ hours/week for strategic advisory.

Business Analyst

May 2022 – May 2024

Analytics Quad 4 (AQ4) · Full-time Bengaluru, India

- Translated complex business requirements into build-ready BRDs and user stories, applying requirements analysis to reduce rework and accelerate delivery by collaborating with product owners, engineers, and data teams.
- Improved Agile Scrum and Waterfall delivery efficiency by 18% and reduced rollover stories by 25% by facilitating Scrum ceremonies in JIRA and acting as the bridge between stakeholders, developers, and QA.
- Supported UAT execution and release readiness, improving issue resolution speed by validating real-world scenarios, logging defects, and coordinating fixes with QA, engineering teams, and UI design leads.

ACADEMIC EXPERIENCE

Marketing Consultant

Jan 2025 – May 2025

Franklin Templeton · Boston University Boston, MA

- Conducted stakeholder interviews with 30+ financial advisors to identify barriers to secondary market adoption and developed positioning documents and messaging frameworks that addressed key objections.
- Designed multi-channel advertising strategy combining geo-targeted webinars, paid search, and influencer partnerships, achieving 50K+ impressions.
- Developed comprehensive campaign brief that generated 650–750 webinar registrations and 100–140 qualified advisor leads, establishing a repeatable GTM funnel.

Project Management Intern

Feb 2022 – Aug 2022

Bahaar Foundation · Internship Bangalore, India

- Coordinated cross-functional program execution across 3 concurrent healthcare initiatives, tracking 50+ deliverables by aligning stakeholders on priorities and timelines.
- Improved operational workflows by identifying process inefficiencies, recommending adjustments, and supporting implementation across teams.
- Strengthened reporting transparency by documenting weekly progress in Confluence across 4 workstreams for internal and external reviews.
